PRETRAVEL HEALTH GUIDELINES: a few suggestions to keep you healthy on your journey and during your stay:

Vaccinations – two weeks or more before departure:
- Covid and Flu boosters are recommended
- Pneumonia vax and RSV as appropriate for age and/or health condition

Illness precautions: *Feeling sick?* If you have any illness symptoms before traveling, get tested and don't travel if you have a positive test, or negative test results with fever and obvious symptoms.

Hydrate and rest. GI and urinary issues are common with travel, so eat light, drink extra water, and have electrolyte packets handy. Get extra sleep, which is important for a healthy immune system.

Personal health issues. Don't forget your medication! If you have telehealth service available through your doctor or insurance, have those numbers available. Dr. Jean Peters-Do will be available to give medical advice and guidance if you have any urgent issues come up.
